

MEASUREMENT INSTRUCTIONS - QUICK GUIDE

Fill out patient and contact details first.
Sections 1,2,3,4 & 5 are mandatory. Please fill out as appropriate.

- 1** **Select Style**
Please note that some styles are only available in flat knit.
- 2** **Length & Circumference Measurements**
Take length measurements first. If possible, use a skin marker to mark the measurement points on the limb. All length measurements up to **g** should be taken straight with the patient lying or sitting.

The arm should be well supported with the palm facing up if possible. Take the measurements on the inside of the arm as far as possible. Identify on the form if the arm is measured in a different position.
- 3** **4** **5** **Fabric and Compression Class, Colour & Quantity**
Please choose as appropriate for your patient.
- 6** **Options**
If choosing any of these options please complete as necessary
- 7** **Comments / Requests**
Please use this box to add any comments or diagrams that may assist with the making of the garment. If you have a particularly complex case please feel free to submit photographs and/or additional notes.
